## Welcome to a deep healing of your body, mind & spirit.

It's time to let go of all heaviness that keeps you from living your life in harmony with your innermost self. Restore the energy circulation in your body, mind & spirit. All of my therapy sessions support your health by increase of resilience in body, mind & spirit.

Therapy choice (for NL language: see website [www.bomispi.nl](http://www.bomispi.nl)):

- **Psychic Reading / Spiritual Reading**  
deeper insight in your situation. What keeps you from unfolding your true self? Open-up your mind, see & think in solutions again.
- **Psychic Reading/Energy Healing**  
focus is to release mental tensions & rebalance your energy. It empowers you to connect dreams & reality.
- **Energy Healing therapy**  
mends the energetical field (aura), also effects your spiritual, emotional state of mind & the physical body.
- **Massage therapy**  
supports you to release stress/traumatic tensions that are stored in your physical body. Increases blood circulation, also effects you energetically & emotionally
